

MATH MINUTES

October 2nd – October 6th, 2017 * Mrs. Megli—580-243-8375

MATHEMATICS

4th Grade: Rounding to Estimate
Multiplication, Multiply 2-Digit by 1-Digit, Number Sentences, Multiply 3-Digit by 1-Digit

5th Grade: Multiplying Greater Numbers, Chapter 3 Test, Number Sentences, Dividing Multiples by 10 and 100, Dividing by 1-Digit Divisors

6th Grade: Input/Output Boxes, Equations with More than One Operation, Understanding Integers, Comparing/Ordering Integers, Rational Numbers, Adding Integers

Remember:

2 Accelerated Math Scans due by the end of this week

Cool Math Trick – Same 3 Digit Number

STEP 1: Think of a 3-Digit Number but each digit must be the same – ex: 333, 444, 555, etc.

STEP 2: Add up the digits

STEP 3: Divide the 3-Digit Number with the number you got in step 2

The answer is---37 (Try it out and check it out for yourself) ☺

UPCOMING EVENTS

*October 3 – 3rd-6th Basketball against Cheyenne at SW 5 pm

*October 4th – 5th Grade to STARBASE

*October 5th – 5th and 6th Grade Basketball at Hollis 4:30pm
